

GUARDIAN™

S A F E T Y S E A T

It's what's inside that matters!

Guardian's "3 seats in 1" design is the only single solution for safe and effective transportation of all ages!

Adult Seat

- Application specific engineered, and built for maximum strength and safety
- ABTS construction including either a 3-point or 4-point restraint system
- Commercial grade tracks allow for smooth forward and backward adjustment
- Seat swivels 360° while locking at 0 and 180°
- Unique upholstery material provides a high level of comfort and durability
- Completely seamless construction allows for easy cleaning and OSHA compliance
- Crash tested in both forward and rear facing positions

Toddler & Child Seat

- Comfortably secure both toddlers and larger children from 23 to 85 pounds
- The child seat is easily deployed by simply folding down the back cushion
- A 5-point restraint system safely restrains the child during transport
- Easily adjustable straps and soft cushion headrest
- Unique seamless construction allows for easy cleaning and OSHA compliance

Infant Seat

- Safety Interlock Bar ensures seat is only deployed in the correct rear facing position
- Seat automatically locks in the 45° position
- 5-point restraint system comfortably and safely restrains the infant during transport
- A single pull of the adjustment strap allows the belt system to fit infants 5 to 22lbs
- Disposable padded insert allows for easy clean up
- Designed to be quick and easy to use with minimal training
